

What is the Youth Advisory Panel?

A space for taiohi to connect, speak up, and lead change around real world and technology facilitated sexual exploitation.

It's *not* a support group, but it is a **safe, mana-enhancing space where your voice is heard, respected, and valued.**

ECPAT NZ

We have been upholding the fundamental rights for children to be free from all forms of sexual exploitation since 1993. **We work for a world in which no child can be bought, sold, or used for sex.**

We work collaboratively with relevant sectors, government agencies, and communities to prevent tamaraki and rangatahi being sexually exploited.
